## FALL *at* MOODY

*Students Return*

*Missions Conference*

*Jenkins Hall Update*

Dear friends,

As the holidays move into our lives again, they bring a reminder to celebrate our heritages. Countless letters and cards will travel across the world to tell of recent adventures and ministry updates. And many families and friends will gather for fellowship. During this busy time, I encourage you to thank God for people past and present who bless your life. As we at Moody look forward to celebrating the legacy that God has blessed us with for almost 125 years, we hope that you will reflect on the influence of wise professors and relationships formed at Moody.

To help you rekindle and build relationships, we would like to give you access to updated contact information for Moody alumni. We are gathering this data, with the help of a company named Publishing Concepts International (PCI), by calling, e-mailing, and sending postcards to as many of the 39,000 Moody alumni as possible. This information will be used to help us produce a commemorative 125th anniversary alumni printed directory, which will be available in October 2011. We will also update the online directory. I would like to ask you to please take a moment to respond when you are contacted, and to thank you in advance for your help. Your gracious assistance is kindly appreciated.

From my heart to yours, may the Lord Jesus Christ bless you this Christmas season and in the year to come.

Warmly,

Walter White Jr. '78  
Executive Director, Moody Alumni Association

### **Moody Community Pulls Together to Respond to Jenkins Fire**

At 12:12 a.m. on August 1, an electrical fire broke out on the 12th floor of Jenkins Hall. Moody Bible Institute's Public Safety team responded immediately, and worked with various Moody and City of Chicago personnel to safely evacuate affected residents. The Chicago Fire Department extinguished the fire by 1:50 a.m.

"The Chief of Fire Safety for Chicago's First District was impressed by the speed with which our team was able to provide requested information and staffing," Brian Stoffer, deputy chief of Moody's Public Safety, said.

In the weeks that followed, the Moody community continued to work around the clock to care for the displaced residents, clean up the debris, and install new electrical and fire systems in the building. "While experts estimated the recovery process would take 3 to 4

months, by the grace of God, we were able to make all repairs necessary for residents to return to their homes in just three weeks," Dr. Paul Nyquist, Moody's president, said.

During the building's restoration, 139 elderly and disabled residents, along with students were relocated to Dryer and Smith Halls. Moody provided daily breakfast, lunch, and dinner on campus for residents, free of charge. Numerous employees volunteered to help residents move in and out of their temporary accommodations.

"Through this experience, my belief that we have an incredible team was further confirmed," Dr. Nyquist said. "We have a very gracious God who loves us and manifests His glory in the midst of crisis. Just as with Nehemiah, the good hand of our God has been upon us."

## Financial Aid News

In an effort to remain committed to the Bible-based, tuition-paid education model Moody has been following for almost 125 years on our Chicago campus, Moody is now participating in Federal Pell Grants as part of the Title IV Federal Student Aid program. We believe God has provided this avenue to assist in offsetting some of the cost of tuition for MBI. As the cost of tuition for students continues to increase each year, we trust that through the generous support of our partners, supplemented with Title IV funds, Moody will remain committed to meeting these rising costs and sustain its tuition-paid education for undergraduates on our Chicago campus.

Eligible students studying through Moody Distance Learning or at Moody Bible Institute–Spokane are able to directly benefit from Pell Grants by having their tuition bill reduced.

Moody has chosen not to engage in all aspects of Title IV Federal programs (i.e. student loans) so that students won't accumulate excessive debt.

Students may now apply for  
Federal Pell Grants
